

Pattern Church Venue Hire •

Inviting people into family to serve Swindon.

Why

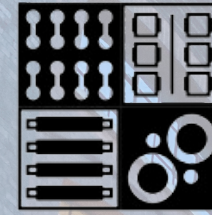

Pattern Church?

At Pattern Church, part of our vision is inviting people into family. This doesn't stop at Sunday services. The Swindon community is at the heart of all we do and we love to see local residents and businesses using this iconic building. Whether you're looking for a venue for a meeting, a corporate function, conference, birthday party or wedding, we can create a bespoke hire package to make any occasion extra special.

History

Of The Pattern Store

Constructed in 1897, The Pattern Store was part of the Swindon Works. The Pattern Store housed the engineering patterns during its time as a Great Western Railway warehouse until its closure in 1986. The basement was also used as a Mess Room during World War 1. This Grade 2 listed building has been a long standing landmark on the Swindon skyline and has had many different uses over the years including a bar and restaurant. Lovingly restored to its former glory and recommissioned by the Diocese of Bristol, Pattern Church now boasts contemporary facilities and interior design while maintaining many of its charming original features - even the original engineering patterns make an appearance.
